IUCAT and Library Website Update

Julie Hardesty
Indiana University Bloomington Libraries
Digital Library Brown Bag Series
December 6, 2006
New to IUCAT

- Simplified look
- New searches:
  - DVD/Video
  - Sound Recording
  - E-books (Beta)
- Login Screen
IUCAT Demo

http://iucat-test.ucs.indiana.edu:12200
Library Website

- Implementation NOT HAPPENING January 2007
- Change to website is fundamental shift
  - Navigation-driven -> Search-driven
  - Consolidating global content (ex., multiple pages on E-Reserves with distinct information plus the actual E-Reserves website)
  - Programming changes (scripted -> object-oriented)
- Timeline available on Intranet:
  - Group Sites: Web Team -> Papers & Reports -> Project Timelines
Library Website Plan

- Release pieces of new site in beta form as they are reconfigured/reprogrammed
  - Ability to test and gather feedback/make adjustments
  - Let all users (student, faculty, and staff) in on changes before they occur
  - Set in place iterative testing/adjustment of website – continuous process
- Make new website “the” Libraries website – Late Summer 2007
Library Website Development
