

Appendix B. Size of the departmental faculty categorized by rank. Inst=Instructor or other ranks below Assistant Professor level; Ast=Assistant Professor; Asc=Associate Professor; Full=Full Professor. Listings taken from University Bulletins. After 1973, faculty below the rank of Assistant Professor (i.e., Instructors, Associate Instructors) are not listed in the Bulletin and are not included here.

Prior to 1889 there was only a single professor of whatever title teaching one or more courses in geology. These included Theophilus Wylie, Robert Milligan, David Starr Jordan, Richard Owen and John Caspar Branner. In 1889 Louis Rettger was employed as an assistant in geology. Thus, this chart begins with the first time that there were two persons employed in geological teaching.

	Inst	Ast	Asc	Full	Total	
1889-1890	1			1	2	
1890-1891	0				1
