Notes

<insert notes here>

• **Academic Integration.** Understanding their expected difficulties and feeling prepared, these items provide an excellent opportunity to help students set realistic goals or to discuss ways to utilize campus resources that will contribute to a successful academic year. Also, note the expectation for grades and hours studying. Are they aligned with their expected academic difficulty and feeling prepared? This can be another excellent opportunity to discuss how to find and utilize resources that will contribute to a successful academic year.

Finances

Expected difficulty paying college or university expenses	+
Stress meeting basic needs or college expenses	No
Financial support from family*	Yes
Student Loans*	Yes
Expected hours per week working on- or off-campus	11-15

Notes

<insert notes here>

• **Finances.** Many students experience financial difficulties. It is well-understood that financial stress undermines student success and persistence. These items provide an advisor important information about financial campus resources the student may need, as well as discussing time management strategies for this students who expect to work many hours.

• **Social Integration.** These items provide an important opportunity to consider the student's expectations and importance to be socially involved and make new friends. Particularly important is to identify students who may become socially isolated due to their expected difficulty making new friends, along with very few or no friends also attending the institution. Advisors can provide recommendations for socially isolated students.
