BCSSE Scales and Component Items

BCSSE Scales provide valuable information about distinct aspects of past and expected student engagement and beliefs about the upcoming year. BCSSE’s ten scales are calculated from 45 core BCSSE items. Many of the BCSSE Scales parallel NSSE Engagement Indicators, which were rigorously tested both qualitatively and quantitatively in a multi-year effort that included student focus groups, cognitive interviews, and two years of pilot testing and analysis.

Scales and Component Items

Quantitative Reasoning
During your last year of high school, about how often did you do the following?
Response options: Very often, Often, Sometimes, Never
