

# Sense of Belonging in the First Year of College

42th Annual Conference on The First-Year Experience  
Los Angeles, California, Saturday, February 4, 2023

## Kevin Wenger

*Ed.D Student – Indiana University &  
Research Project Associate – Center for  
Postsecondary Research/NSSE*

## James Cole

*Project Director, Beginning College Survey of  
Student Engagement*

# We will cover...

- **Why Sense of Belonging is important**
- **BCSSE and NSSE Basics**
- **Purpose: To investigate the connection between entering first-year student expected academic expectations, beliefs, and prior experiences and their sense of belonging for students near the end of their first-year of college**
- **Strategies to increase sense of belonging**

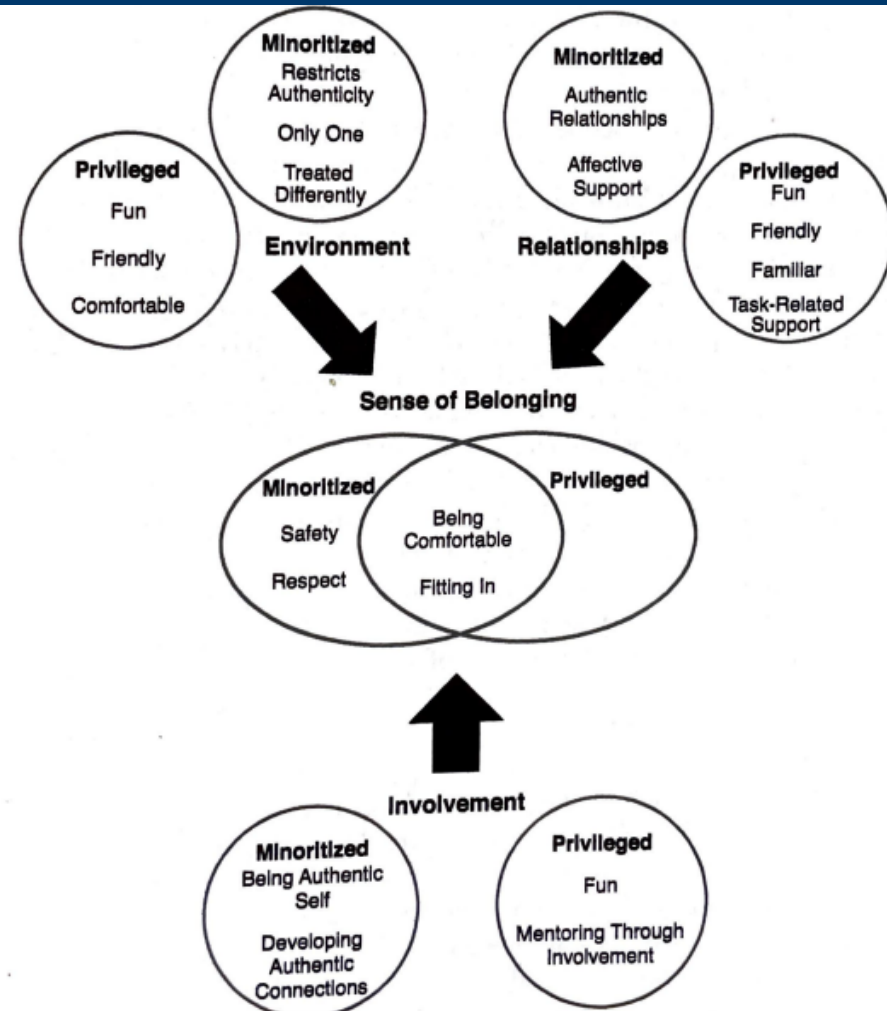

# Sense of Belonging

*What is sense of belonging?*

“Students’ perceived social support on campus, a feeling or sensation of connectedness, and the experience of mattering or feeling cared about, accepted, respected, valued by, and important to the campus community or others on campus” (Strayhorn, 2019, p. 14).

- Rooted in basic human needs (Maslow, 1968)
- Inherently tied to our social identities (Vacarro & Newman, 2022)
- Related to concepts such as sense of community (McMillan & Chavis, 1986), connectedness and mattering (Rosenberg & McCullough, 1981)

Vaccaro, A., & Newman, B. M. (2016). The development of a sense of belonging for privileged and minoritized students: An emerging model. *Journal of College Student Development*, 57(8), 925–942.

# Why Sense of Belonging is important

Relationships have been found between sense of belonging and:

- Increased persistence and ongoing decision to pursue higher education
- Forming healthy social groups
- Academic performance, as well as sustained academic engagement
- Positive psychological well-being
- Academic and social involvement (vice-versa)

(Hausmann et al., 2007; O’Keefe, 2013; Strayhorn, 2019; Walton and Cohen, 2007; Hagerty et al., 1992; Goodenow, 1993)

Strayhorn (2019; 2022) also suggests that sense of belonging “takes on heightened importance”:

- In certain contexts (such as entering a new community)
- At certain times (such as late adolescence)
- Among certain populations (especially those who perceive themselves as marginal to campus life)
- In the classroom (feeling supported and connected to faculty and peers)

# Show of hands. . .

# BCSSE Basics

Purpose: To measure prior academic and co-curricular experiences, as well as expectations and beliefs about participating in educationally purposeful activities during the upcoming academic year, for all **entering students including first-year, transfer, and older students who have little or no college experience.**

BCSSE results are used in many ways including:

- Academic advising
- Retention efforts and predictive analytics
- First-year program design and evaluation
- Faculty and staff development
- And more. . . .

# BCSSE Survey

**Common questions for all students** regarding their *expectations* and *perceptions* for the coming year. These common content areas include:

- Academic Preparation
- Academic Perseverance
- Academic Difficulty
- Academic Help-Seeking
- Collaborative Learning
- Student-Faculty Interaction
- Hours Studying and Working
- Importance of Campus Support
- Expectation to Graduate from Current Institution
- Sources for paying for college
- First generation status
- Expectation to graduate
- Expected grades
- Friends also attending
- Choice of institution
- Race/ethnicity
- Other background information

# Expectations are Important

## Understanding student expectations is important!

- **Expectations and beliefs about the upcoming year guide decision making and where students focus their attention.**
- **Expectations that you should pay attention too depends on what questions you are trying to answer or what you are trying to accomplish.**

# NSSE Basics

## National Survey of Student Engagement (NSSE)

- ❖ Administered annually at hundreds of baccalaureate level institutions across the US and Canada.
- ❖ Since 2000, approximately 6.4 million first-year and senior students enrolled at more than 1,600 institutions have completed NSSE.

# NSSE Basics

NSSE collects data representing a breadth of student engagement behaviors, including 10 Engagement Indicators and 6 High Impact Practices.

## Engagement Indicators

- Higher-Order Learning
- Reflective & Integrative Learning
- Learning Strategies
- Quantitative Reasoning
- Collaborative Learning
- Discussions w/Diverse Others
- Student-Faculty Interaction
- Effective Teaching Practices
- Quality of Interactions
- Supportive Environment

## High Impact Practices

- Learning community
- Internship, co-op, etc
- Work w/faculty on research project
- Service Learning
- Study abroad
- Culminating senior experience

# NSSE Sense of Belonging

## Sense of Belonging

*To what extent do you agree or disagree with the following statements?*

Response options: Strongly agree, Agree, Disagree, Strongly Disagree

1. I feel comfortable being myself at this institution.
2. I feel valued by this institution.
3. I feel like part of the community at this institution.

# BCSSE and NSSE

**FY student  
expected  
academic  
expectations,  
beliefs, and prior  
experiences**

**BCSSE**

**~6 months**

**Sense of  
belonging for  
students near  
the end of  
their first-year  
of college**

**NSSE**

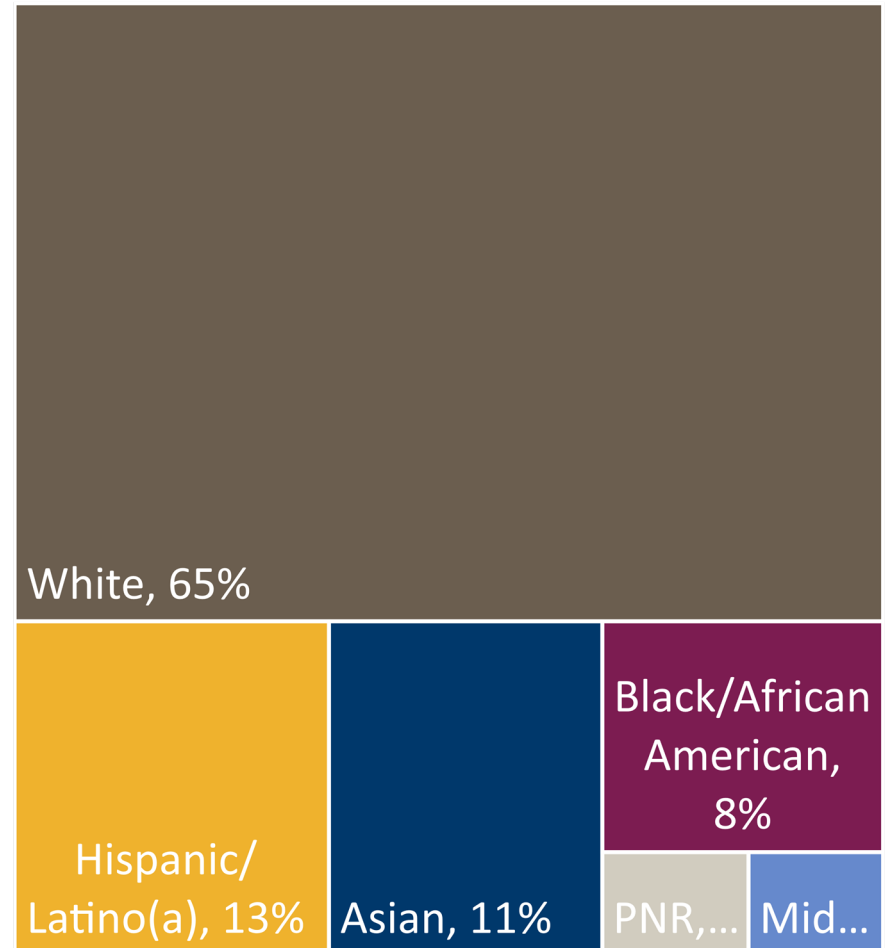

# BCSSE-NSSE Sample

Sexual Orientation

Race/Ethnicity

# NSSE Sample

First Generation Status

Gender Identity

Disability Status

# FY Sense of Belonging

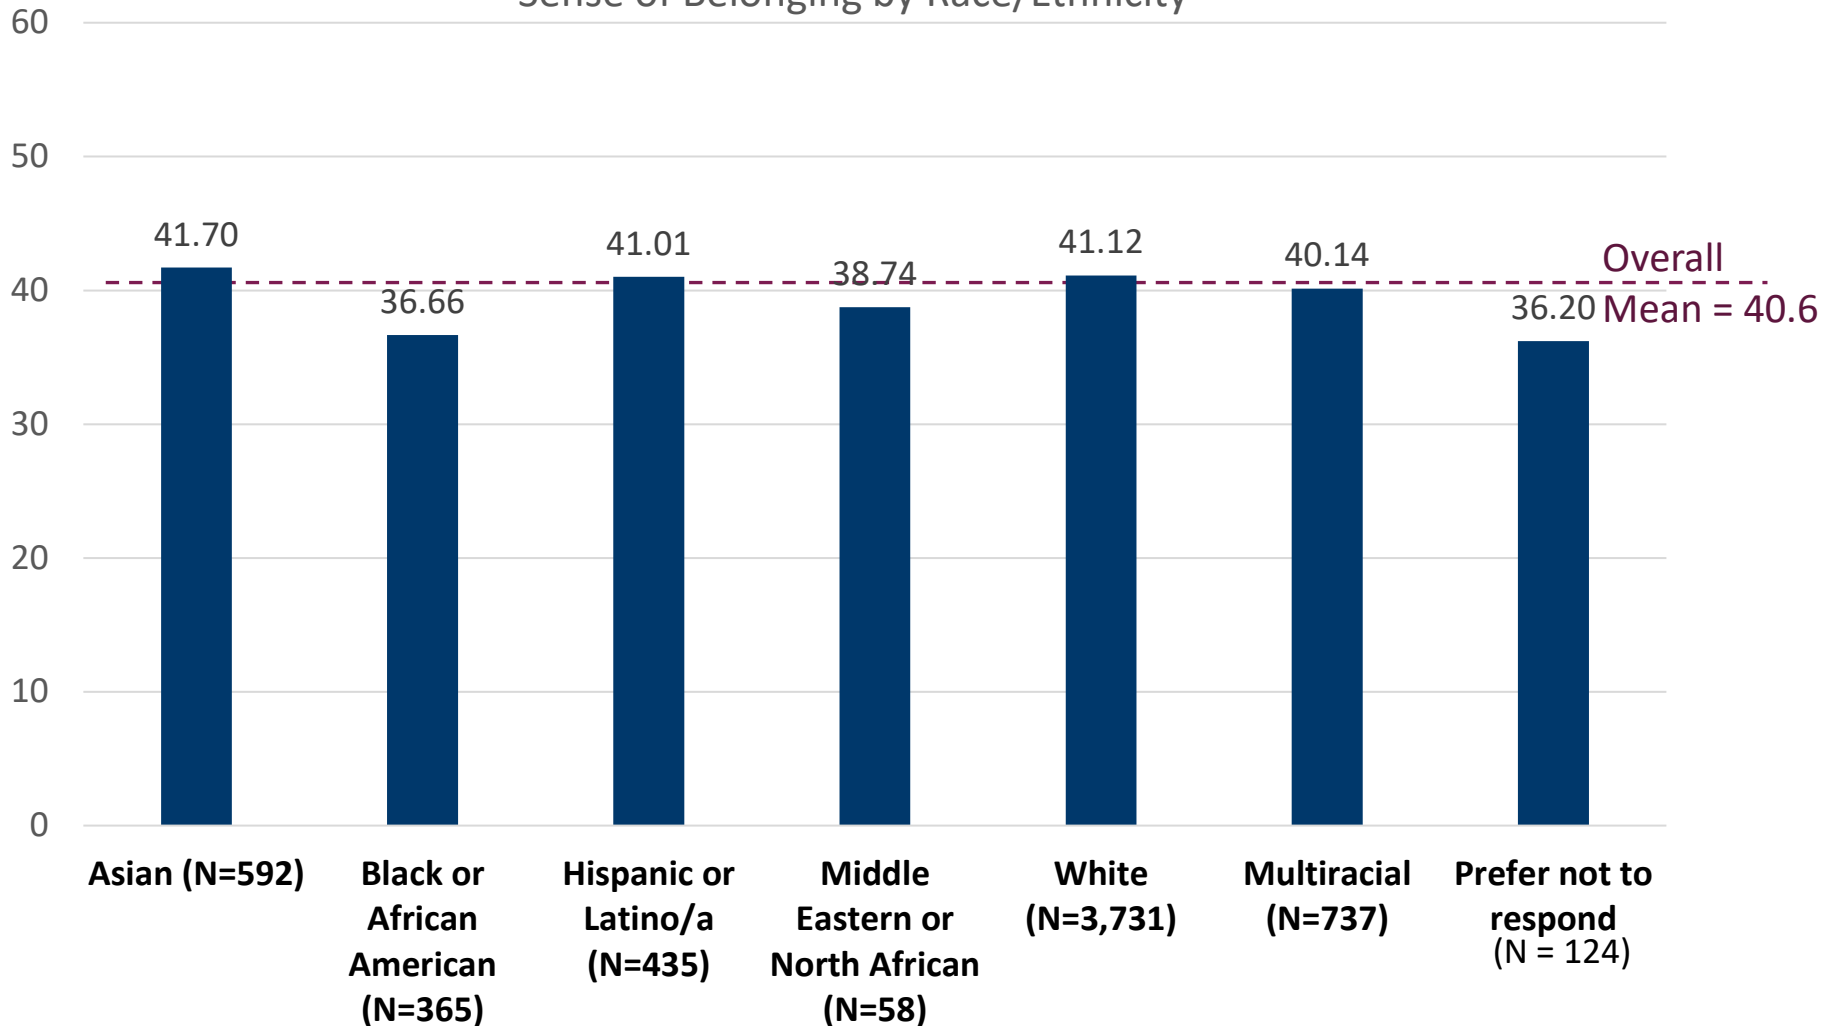

NSSE Sense of Belonging Responses (%)

# FY Sense of Belonging

Sense of Belonging by Race/Ethnicity

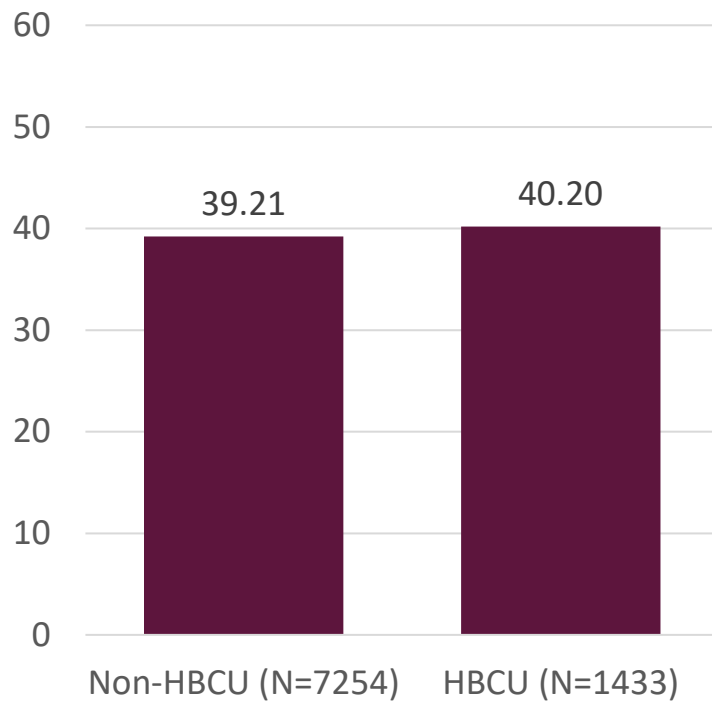

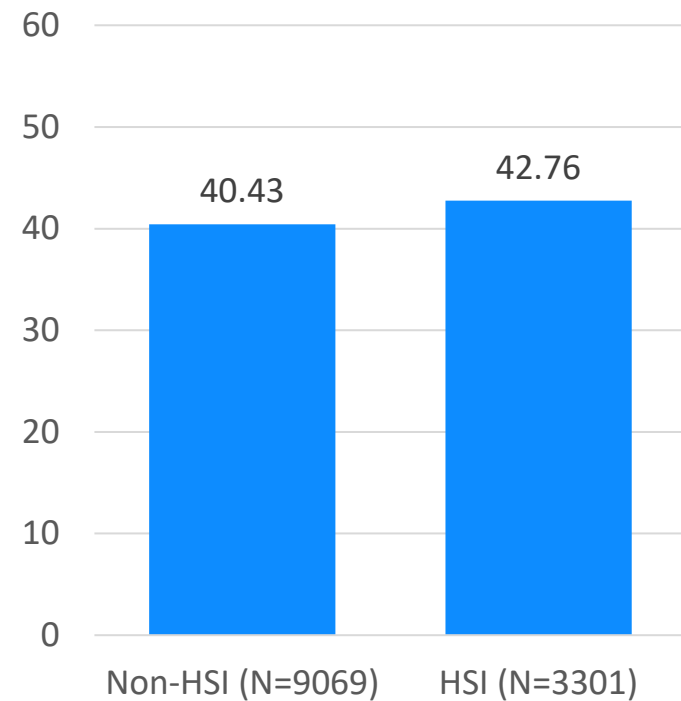

# FY Sense of Belonging

Black/African American  
Students Sense of Belonging by  
Institution Type \*

Hispanic/Latino(a) Students  
Sense of Belonging by  
Institution Type \*

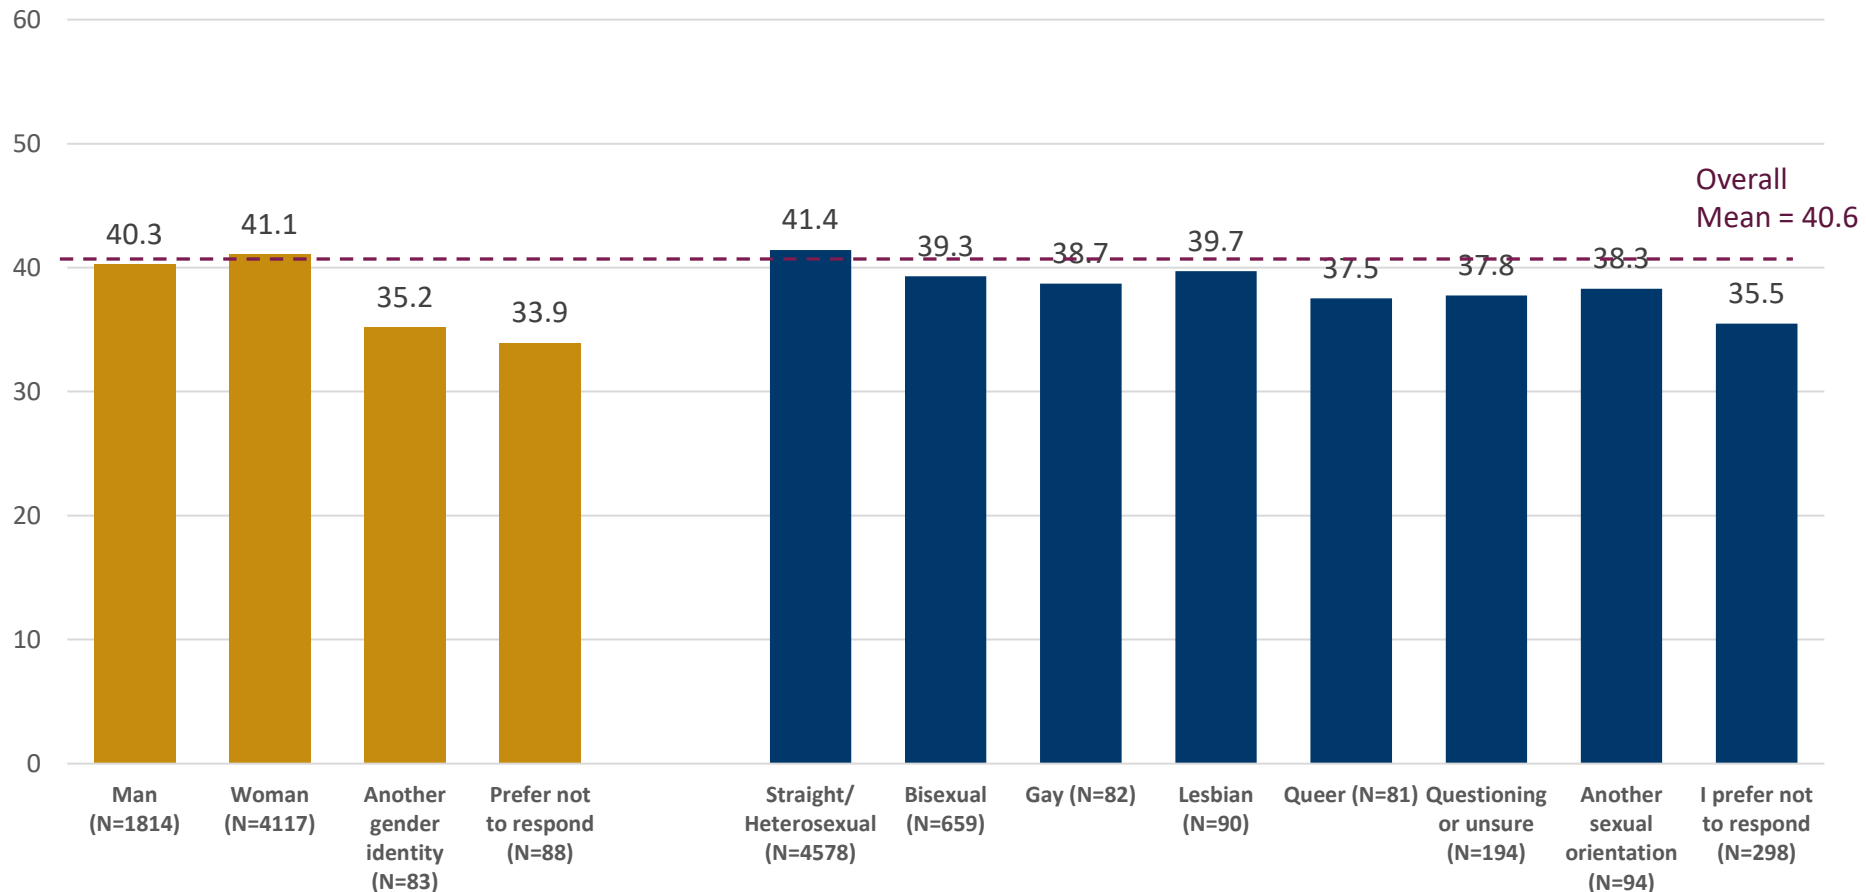

Independent samples T-tests reveal these to be significant differences,  $p < .05$  for Black/African American Students and  $p < .01$  for Hispanic/Latino(a)

\*These data are  
from all First-Year  
NSSE Respondents

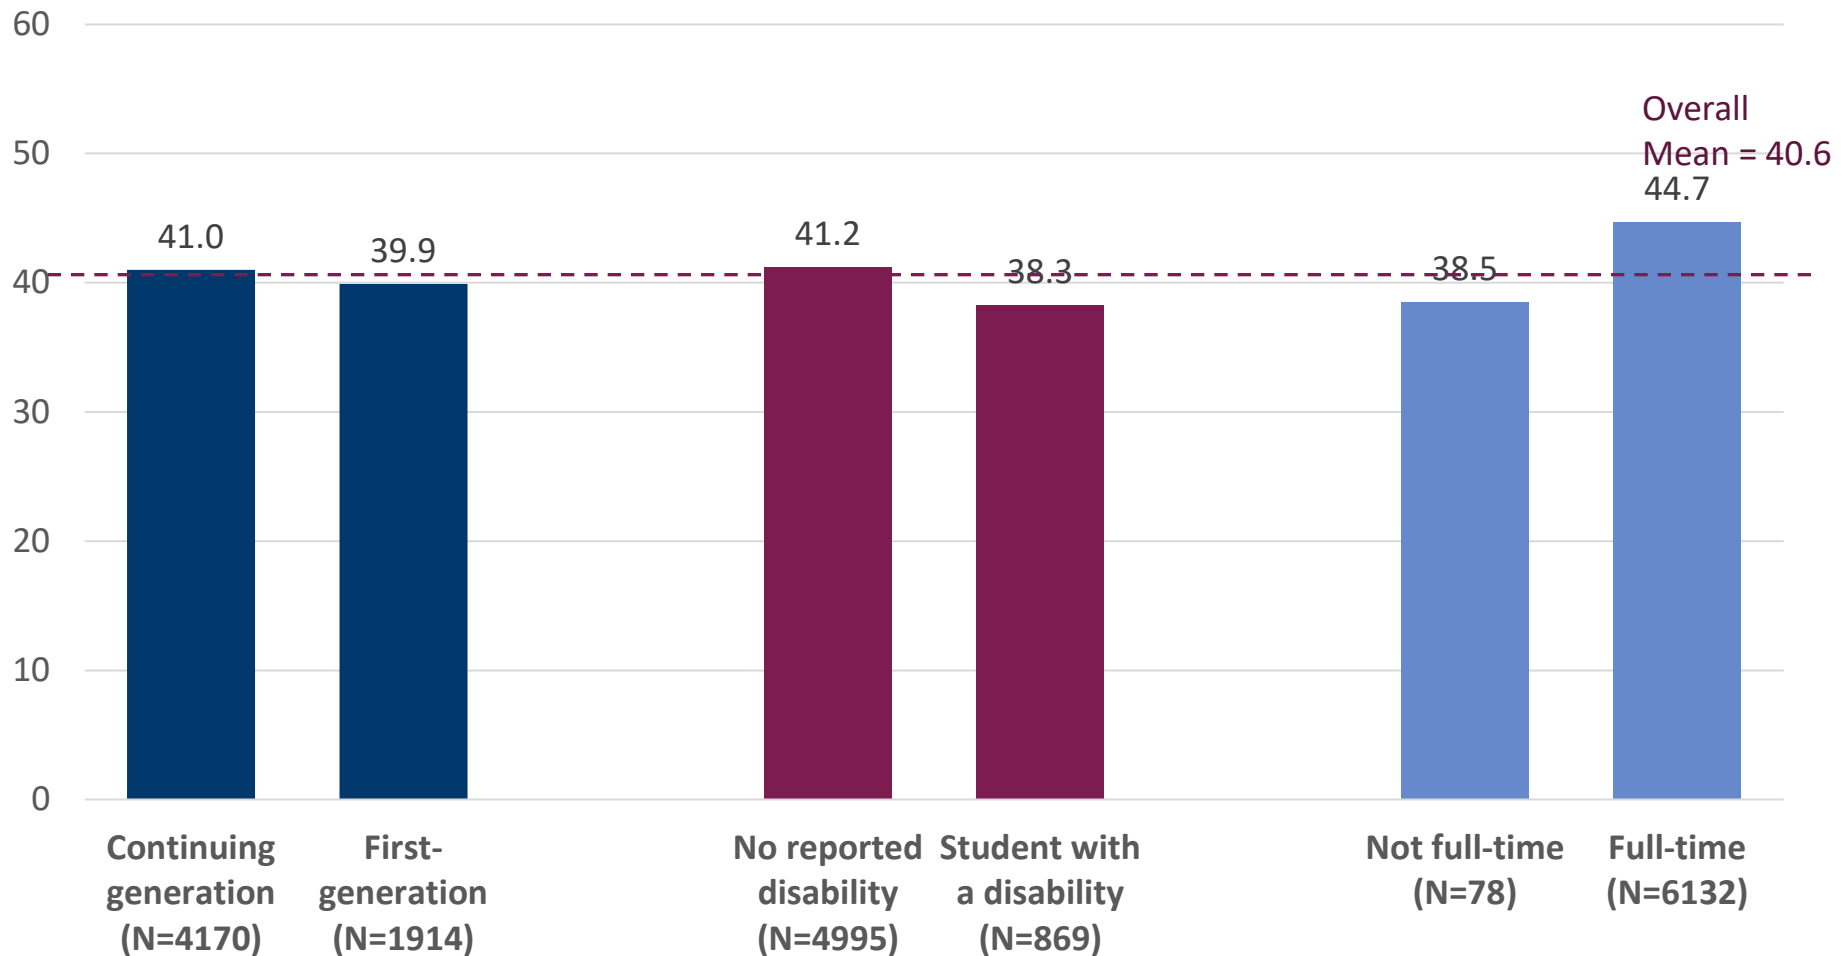

# FY Sense of Belonging

Sense of Belonging by Gender Identity & Sexual Orientation

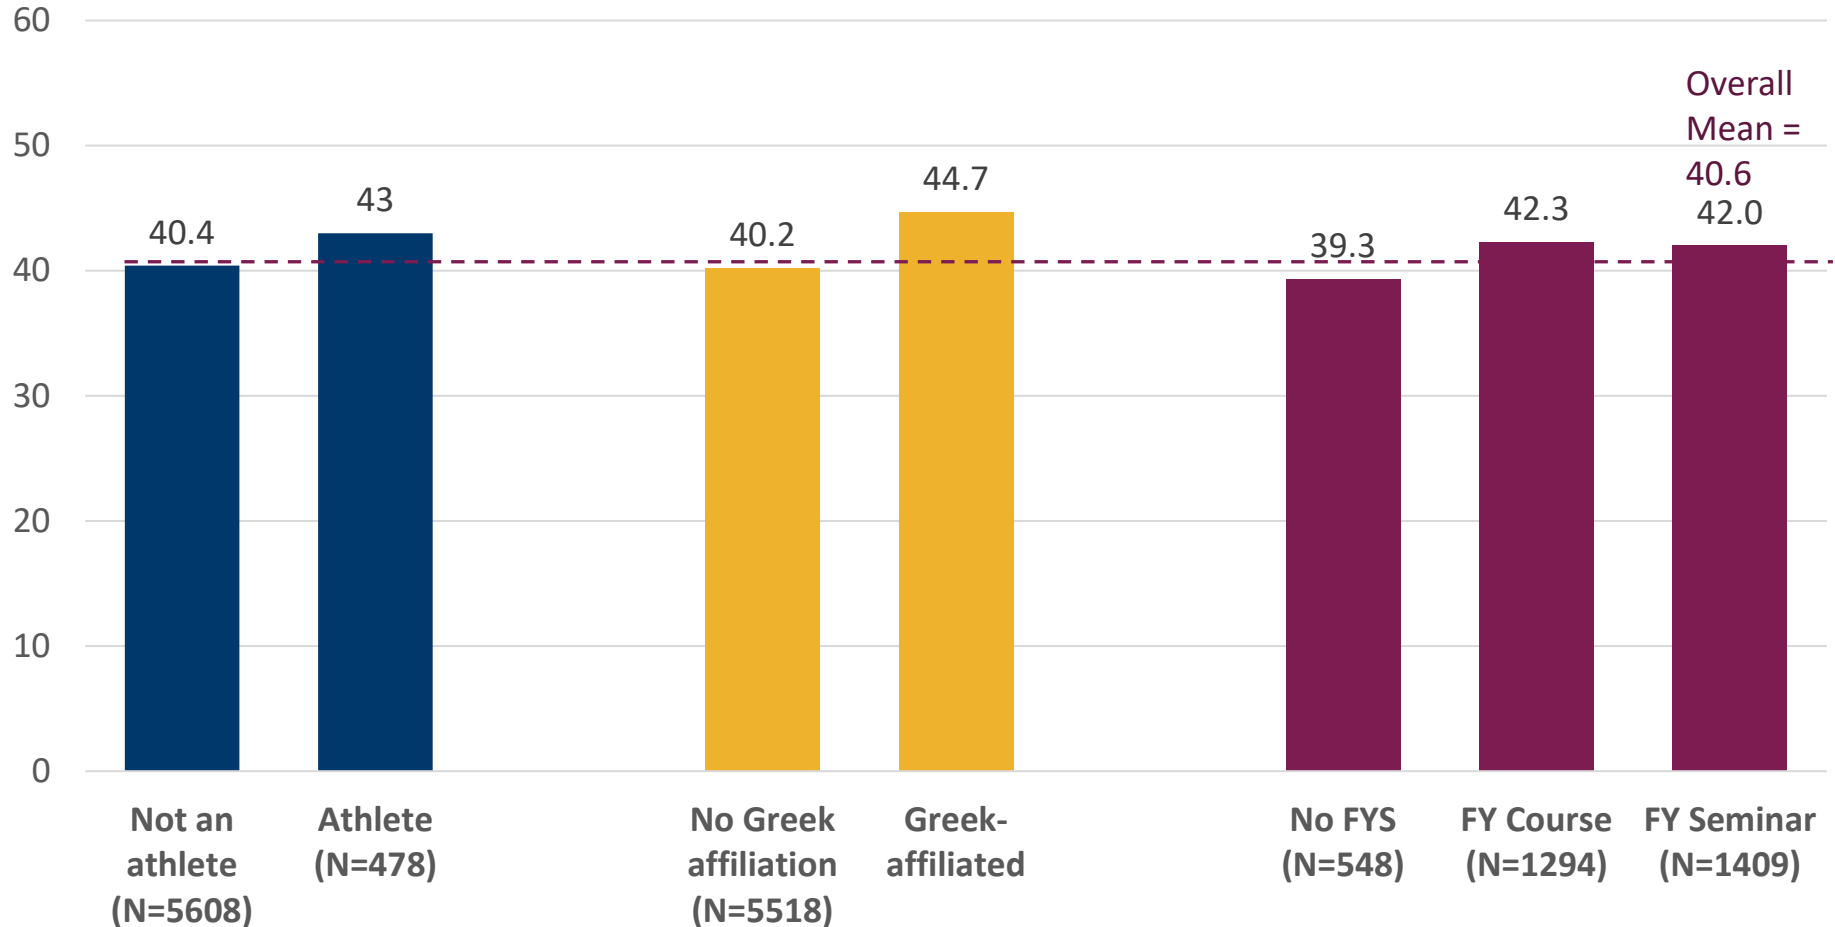

# FY Sense of Belonging

# FY Sense of Belonging

# Sense of Belonging – Linear Regression

## What is linear regression?

Linear regression is a modeling technique used to predict the relationship between two or more variables.

Linear regression fits a linear pattern to model changes in the dependent variable when a change takes place in the independent variable.

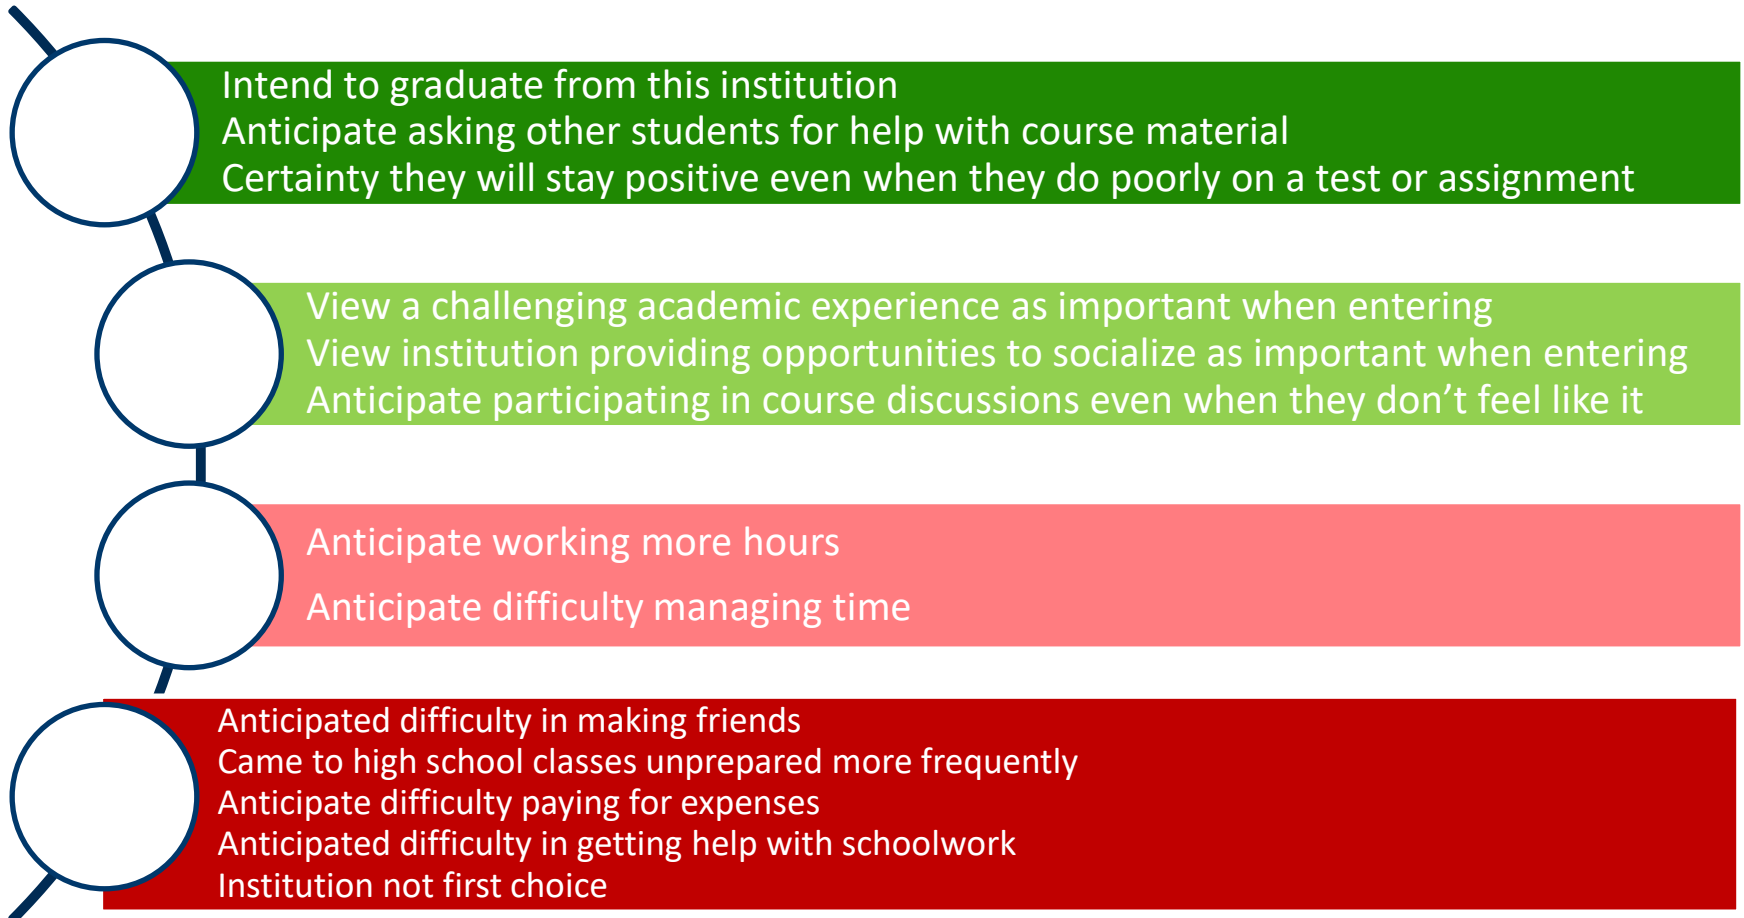

## What's So Funny About Correlation?

# Connection between Expectations and Belonging

A regression analysis of 5,336 BCSSE-NSSE respondents indicated the following variables have a significant ( $p < .05$ ) relationship with sense of belonging:

# Strategies to increase sense of belonging

- FY Seminars/Courses & Orientation
- Assess involvement, attitudes/expectations, and engagement
  - Formal v. Informal
  - Collaborations
- Work with specific populations (First-gen, LGBTQ, students with a disability, etc.)
- Work collaboratively with academic affairs
- Incorporating the student perspective
- Examples from research:
  - Strayhorn (2021) – introduced a brief video of upper-class students discussing their experiences in finding belonging
  - Costello et al. (2022) – 9 group sessions based on The Teen Connection Project

**What do you do on your campus that you feel contributes to students' belonging?**

(Practices, interventions, traditions, etc.)

# THANK YOU!

**Please contact us with any questions or comments.**
