

# Introduction to Research

3 0000 092 576 911

Indiana University

Department of Chemistry

Volume 44

Part 1

Bloomington, Indiana

2004-2005

## **Preface**

These fifty-two reports, bound in four parts, represent the research efforts of beginning graduate students enrolled in C500 during the academic year 2004-2005. A description of the nature of C500 work is given in the preface to Volume 3 of this series.

Martin Stone  
Director of Graduate Studies

## C500 RESEARCH REPORTS 2004-2005

### Volume 44

#### Table of Contents

##### Part I

1. **Adhikari, Debashis**, - Enantioselective Hydroamination by Ti-based Ligand and Synthesizing Challenging Compounds by a Tripodal Scorpionate Ligand 1
2. **Chow, Nicholas** – Toward the Total Synthesis of Tubelactomicin A ..... 18
5. **Clizbe, Elizabeth** – Regioselective Rhodium-Catalyzed Allylic Amination . 36
6. **Copes, Ashley** – Steps Toward Peptide Polymerization in Polyacrylamide Gels ..... 50
7. **Cui, Xiao** – Regioselective Rhodium-Catalyzed Allylic Etherfication ..... 71
8. **Davis, Amelia**. – Synthesis of Non-Macrocyclic C<sub>3</sub>-Symmetric Tridentate Ligands..... 86
9. **De, Arnab** – A Diebetic Panaca ..... 98
10. **DuFort, Christopher** – Towards Local Probe Vibrational Spectroscopy of Single Virus Particles ..... 136
11. **Ferguson, Glen** – Reactions on the Silicon (100)-2x1 Surface: Characterization of Oxygen Insertion and the Amino Acid Deposition using Electronic Structure Theory..... 150
12. **Fout, Alison** – Dinitrogen Activation by a Low-Valent Cobalt Complex and the Elusive Cobalt-Oxo ..... 182
