

- EXPLANATION**
- + Dry hole
  - Oil well
  - x Water repressuring or brine disposal well
  - / Abandoned oil well
  - \* Abandoned gas well
  - ⊗ Abandoned water repressuring or brine disposal well
  - Well; type of completion unknown (from early Ohio Oil Company lease plat)

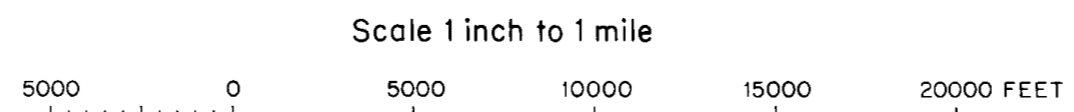

All productive areas shown on this map are considered to be within the Trenton Field.

Total well completions within Grant County exceed those shown on this map. Although this map is known to be incomplete, all well locations have been verified by field investigation or from various property plat maps showing well locations. Specific locations for some wells drilled many years ago cannot be determined. These wells are shown on Preliminary Well Location Map of Grant County, Indiana, which is available on request.

Note: Reserves are recognized land divisions defined prior to surveys establishing the congressional system. For convenience in description they are assigned to congressional townships; the arbitrary township boundaries are shaded.

Base from U.S. Geological Survey topographic quadrangle maps, scale 1:24,000, 1960-69.
