

The Northwest Indiana COINCIDENT INDEX

May 2015 Release

In May the Northwest Indiana Coincident Index rose by 0.6 points to 140.5. This growth was driven by a significant increase in employment in the region.

The Northwest Indiana Coincident Index measures the current pulse of the economy in Northwest Indiana. The current value of the Index and a six-month forecast is released every month in a brief update. Analysis and further details are released in quarterly summaries.

For additional information about the NWI Coincident Index as well as past releases please visit www.iun.edu/business/nwi/
