

# Recycling for Fun!

By Saudia Baskerville and Saya Kazahaya

Playtime was very fun for Mindy and her class. One day, Mindy's class could not play outside because of the trash on the playground.

Everyone shouted, "We really want to go outside!"

While her friends yelled, Mindy wanted to fix the problem.

Mindy went home and told her mother about the trash problem on the playground.

Mindy's mother told her, "There is an easy way

to clean up the trash."

And she taught her how to recycle.

The next day,  
Mindy sorted all of the  
trash into papers and  
plastics.

After sorting  
the trash, Mindy ran  
into the classroom  
to teach her friends about recycling.

Now, Mindy's whole class recycles, and  
they can play outside every day!
