Mary’s Son
ABIZEYIMANA Hawa
Translator: NGENDAHIMANA Theogene

Pre-Reading Questions:
• What do you like most about school?
• How do you succeed in school?

Mary’s son began his first year of school when he was six years old. He finished the year in first place and advanced to P2. He wished to become a doctor because his father was a doctor. The child studied hard and once again took first place in his class. After this, he thought that his dream could be possible. He continued to study and went to P5, ranking in first place in the class.

The teachers observed how intelligent he was and asked him, “Child, I see that you are intelligent and do very well in the class. What is your goal?”
The child said, “I have good marks. My goal is to become a doctor, and I know that if I study hard my goal will be reached.” He stayed in first place and began P6. He studied very hard and participated in the national examination.

One day, when the results came, he went to see if he had reached his goal. He saw that he was the first in the whole country.

He went to a good secondary school and studied until he went to a university and became a doctor.

Every child must have a good goal and study well so that he can be successful like Mary’s son.

ABIZEYIMANA Hawa is 11 years old. She is a student in P5 at Kabwende Primary School. Her favorite subject is English. Her favorite color is green. She has two brothers and four sisters. When she grows up, she wants to be a doctor. She enjoys cleaning and revising notes.
