2016 Membership Application

Our members support the enrichment of the scholarship in optometry history and the preservation of and access to the archival and museum collections that make this research possible. It is because of the vital support provided by the American Optometric Association and Optometry Cares® - The AOA Foundation that the Archives and Museum of Optometry can maintain collections that have taken more than a century to build. It is because of the support of members of the OHS that these materials remain viable resources for the education of future generations.

Yes! I want to join the Optometric Historical Society!
