

A pamphlet of 54 pages dated 1915 gives a list of officers to be investigated and the order of examination in each office. This is entitled *Uniform System of Examination*, prepared by the State Board of Accounts.

The last publication of the Department is a *Report of School House Ventilating and Heating and Rules on Public Building Contracts*, GILBERT H. HENDREN, 1917, pp. 33 and 8. This report was prepared by C. B. Veal, School of Mechanical Engineering, Purdue. It is a description and appraisal of the various systems with definitions of standard terms.

Biennial Report of the commissioner of Fisheries and Game of Indiana, for the Fiscal Years 1914, 1915; E. C. SHIREMAN, Commissioner; paper, pp. 100, illustrated.

THIS contains a report of the work done during the period. The principal activities have been in connection with Fish Hatcheries, Wild Bird Protection, Game Protection and Farm Fish Ponds. In connection with the last are several illustrations.

Thirty-eighth Annual Report of the Indiana School for Feeble Minded Youth, for the year ending September 30, 1916. DR. GEORGE S. BLISS, superintendent, pp. 76.

THIS school is located near Fort Wayne. The attendance was 1,305, with 1,374 enrolled; an average of 15 from each county. The cost of maintenance was about \$140 per capita. This is conducted as a school with a farm and garden attached. The inmates make their own shoes, clothing and mattresses. A great deal of the time is spent in play.

Sixteenth Biennial Report Bureau of Statistics for 1915 and 1916. THOMAS W. BROLLEY, Chief of Bureau; cloth, pp. 881.

It is almost useless to try to describe a volume of statistics. The first 46 pages are devoted to Licensed Employment Agencies. Then come Social Statistics, under subheads of Population, Citizenship, Marriage and Divorce, Coroner's
