OF INTEREST TO GENEALOGISTS

Through the courtesy of Anna Allen Wright, of Ithaca, New York, and Reginald Ray Stuart, of San Leandro, California, the Indiana Historical Society has received a chart, "Index of Descendants of Hugh McMillen and Lydia Southwick." This includes all data available as of May 15, 1940. It is reproduced by offset process, carries reduced photographs of nearly all persons in the direct line of descent, and is conveniently folded. It is a model which all genealogists will find both interesting and suggestive.—*Christopher B. Coleman.*
