

Correction—"Caleb Townes"

In its June issue of this year the *Indiana Magazine of History* published an interesting and informative letter under the title of "From Old Vincennes, 1815," a letter said to have been written by Caleb Townes. From two alert readers we have learned the "Caleb Townes" was actually Caleb Lownes. The editors of this letter and the *Indiana Magazine of History* jointly express their appreciation for the correction. Both of them had proofread the letter against the original and misread the *L* as a *T*. Both wish that Caleb Lownes had formed his capital letters more carefully!
