Professional Development Call for Contributions

Dear Colleagues,

InULA Notes needs your help.

The theme of our next issue will be **Professional Development**.

How do you cope with the fast changing environment?
How do you balance time so that you can...? Success stories? Expectations? Dreams? Frustrations? Or you just want to raise an issue and create an online discussion?

Publishing in a web environment is fun. Think multimedia!

You may send your ideas, papers to us via [email](#).

Thank you.
