

Faculty Research Highlights

Christina Wray, Herman B Wells Library, Indiana University, Bloomington

Christina Wray presented a session on November 11, 2010 via Breeze on creating large display posters using Adobe Photoshop. The InULA Social and Program Committee sponsored this workshop, which was useful for individual and departmental applications. Attendees learned to import images and manipulate them with text for a pleasing design. Christina also shared best practices for poster design. Christina's website, <http://www.delicious.com/ccwrayIUB/ip>, links to various tutorials on poster design and image sites, and she reminded the group that we have access to training in Adobe Photoshop via [Lynda.com](http://www.lynda.com). The Wells Library Information Commons has a plotter that will print these posters at the cost of \$10 for a set length, which can print several posters. Follow up by viewing the recording of the session at: [forthcoming].
