

Research Incentive Grant Report

by Taemin Park, Herman B Wells Library, Indiana University, Bloomington

The InULA Research Incentive Fund I was received in 2007 in the amount of \$300 was used in collecting data for bibliometric study of *D-Lib Magazine*. A citation study regarding journal's bibliometric perspectives, including contributors, author affiliations, collaborative authorship, international coverage, and citation impact will be conducted. Each issue of journals from July 1995 to the June 2008 was examined to collect data regarding contributor attributes, author affiliation, collaborative authorship, geographic dispersion, and number of citations used. Citation impact study will be conducted using ISI citation databases. I plan to analyze the collected data this summer and write a paper.
