

## **Support Literacy in Africa...**

The MILLION BOOK AND DIME PROJECT, a program of the non-profit charity organization, *Develop Africa, INC*, that aims to: bring new focus on the literacy needs of children; find brand new books and used books and distribute them where they are most needed - In Africa; build local communities by asking those who have, to help those who are less fortunate; Introduce students to fulfilling community services; and provide opportunities for people who want to make a difference.

Research shows that the early years involve the highest rates of learning. The habits that children form at a young age will stay with them for a lifetime. Childhood is therefore the best time to introduce children to and immerse them in the habit of reading. This habit will help educate and inform throughout their lifespan. Developing a love of books and reading is an important first step for a child to develop a love of learning in general. And when a child loves to learn, opportunities greatly increase.
