

Mission Statement

The Graduate Journal is a multidisciplinary journal specifically for graduate students. The goal of the Graduate Journal is to publish the best graduate work produced on Indiana University South Bend's campus every year from research to creative writing. We also provide opportunities for academic and professional experience through the peer review and editing process done by graduate students. As a multidisciplinary journal, participants will have the opportunity to engage with ideas and work outside of their fields, which will promote the exchange of perspectives among academic disciplines within the campus.
